# KEEPING NON-DESK WORKERS SAFE BY DETECTING EARLY SIGNS OF **HEAT EXHAUSTION**

Sweat Rate

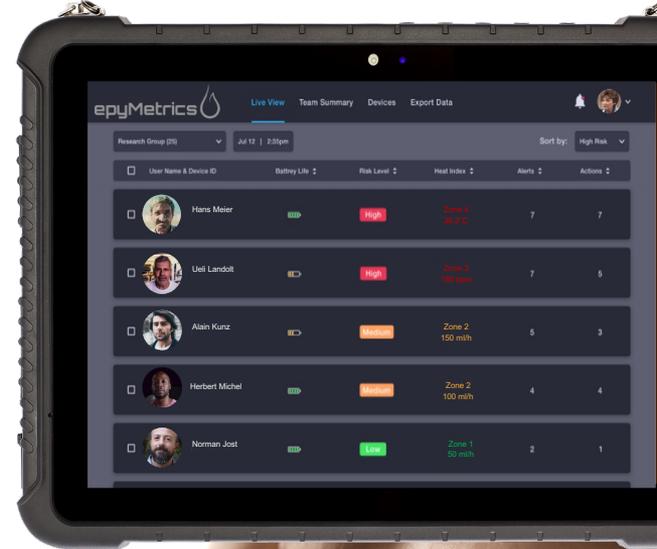

Core Body Temperature

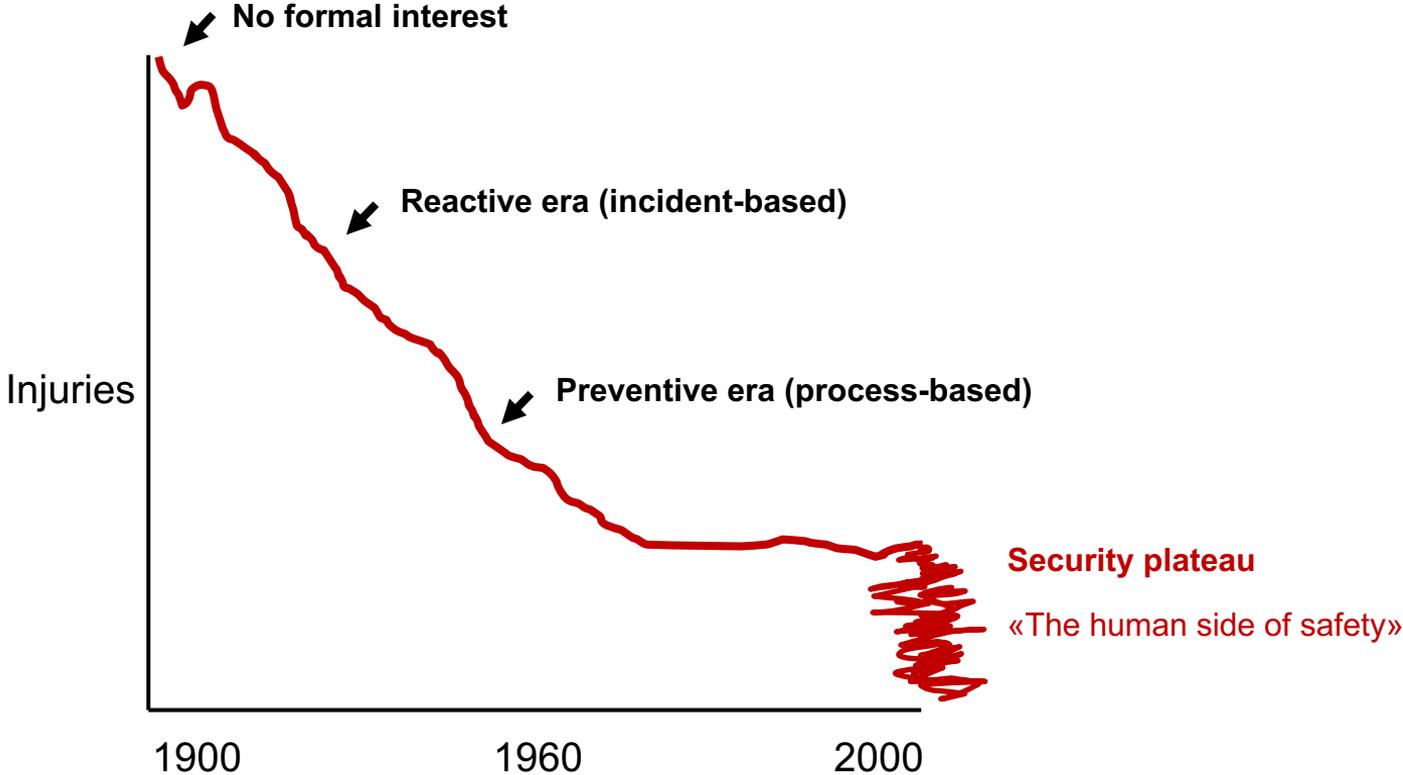

Heart Rate

Activity

# OCCUPATIONAL SAFETY IS TURNING SMART & HUMAN-CENTRIC

Emerging market:  
**Personalized Safety**

# TESTIMONIALS

“The insights provided by epyMetrics’ health data and analytics helped our team to better **quantify and understand the extent of heat exhaustion on employees** during shutdown.”

**Holcim**

“Thanks to the heat exhaustion investigation we were able to **better quantify the physiological impact of the heat-intense work** on our workers at the smelting furnace.”

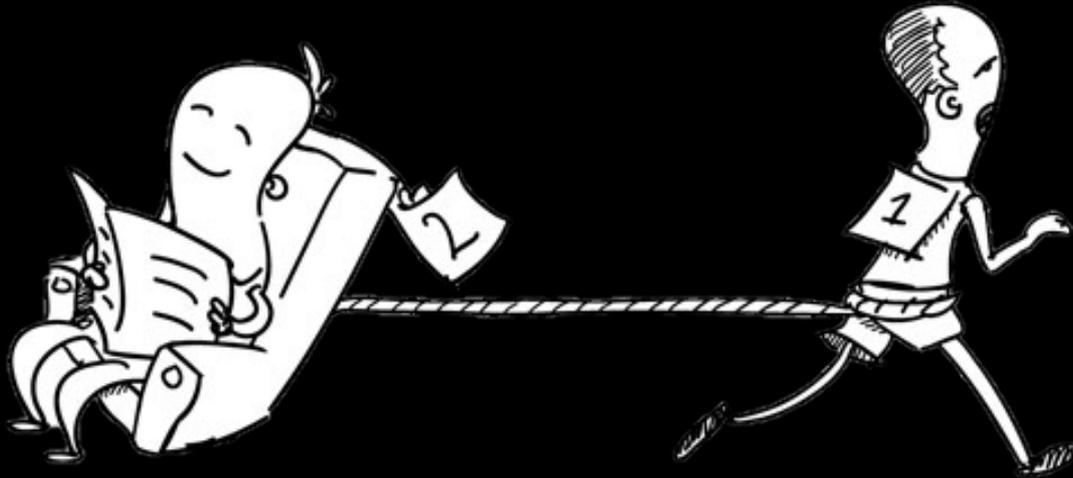

**RUAG**

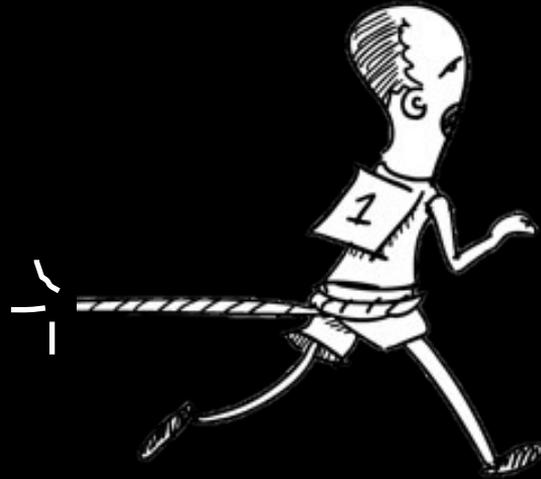

“Keeping first responders safe by detecting early signs of heat exhaustion with the epySHIELD solution is a **game-changer for mission-critical IoT.**”

# REALITY-CHECK: THE FIRST MOVER (DIS)ADVANTAGE

« We are the 1<sup>st</sup>  
to detect early signs  
of heat exhaustion »

# REALITY-CHECK: THE FIRST MOVER (DIS)ADVANTAGE

« We deliver a safety platform consolidating all safety-related parameters in one place and in real-time »

# IOT IS NOT A TECHNOLOGY, IT IS A SERVICE!

**DON'T BE THE 'THING' IN IOT**

**BE THE SERVICE IN IOT**

» A SaaS Safety Platform  
that allows for real-time and  
personalized decision-making «
