Network of National ITS Associations  
DACH Mobility Conference – Nov 2024

#ITSFamily #togetherwearestronger

# ITS Nationals – Update (Nov 2024)

## Vision:

“To lead effective cooperation between National ITS associations”

## Objectives:

1. Support sustainable communication between national associations in the area of ITS and the digital transformation of mobility.
2. Provide an inclusive platform to facilitate closer relationships between national associations including the promotion and support of each other's events and conferences.
3. Promote sharing of implementation best practice of ITS deployment.
4. Encourage collaboration and cross border research, educational projects and initiatives.
5. Facilitate international deployment of ITS for the common good.

# Coordination Committee

1.	Chair	Dónal Hodgins
2.	Vice Chair	Marc Verhage
3.	Former Chair	Guenther Weber
4.	ITS Nationals Representatives	Elena Elenakova Laura Franchi Vacant
5.	ERTICO Representative	Joost Vantomme
6.	Additional Members	Paul Hutton (Communications) Jennie Martin (Ambassador)

# ITS Nationals – Update (Nov 2024)

1. Touchpoints with ERTICO
2. Pathway to a sustainable change in the Network
3. Achievements
4. Looking forward to 2025

## Touchpoints with ERTICO

## 1. Thematic priorities & alignment

- Highlighting national focus areas & strategies; key stakeholders, major development & deployment actions

## 2. Dissemination & Awareness

- Congresses (World, European, national/regional)

## 3. Knowledge Sharing

- Knowledge Hubs/platforms

## Pathway to a sustainable change in the Network

## Last 12 months

- Restructured the administration of ITS Nationals to being provided by the National associations.
- The administration has been undertaken on a voluntary basis by members, at no cost.
- Established voluntary working groups to develop action plans for increased participation and cooperation across the network.
- Aim to develop a sustainable entity.

# Achievements

# ITS Nationals – Update (Nov 2024)

## 1. ITS Nationals Stand Intertraffic
